Summary — Passionate and results-driven Angular developer with 2+ years of experience in front-end development. Proficient in building scalable, high-performance web applications with Angular, Typescript, and RxJS. Strong problem-solving skills demonstrated by solving numerous algorithmic challenges on platforms like Code forces, UVA, and URI Online Judge. Adept at guiding junior developers and implementing best practices in state management using NgRx. Always eager to learn and apply the latest front-end development techniques for efficient and maintainable code.

Skills

Languages: C, C++, JavaScript, Typescript

Web Dev.: HTML, CSS, Angular.js, Bootstrap5

Back-end: Node.js, Express.js

Database: MySQL

Version-Control: Git, GitLab, GitHub

Experience

Desh Universal Private Ltd.

September 2023- Present

Junior Developer

- Developed dynamic, high-performance front-end applications using Angular.js.
- Implemented reusable and modular components to improve maintainability and scalability.
- Integrated RESTful APIs with Angular.js front-end for seamless user experience.
- Optimized application performance by improving data binding and reducing load times.
- Collaborated with back-end developers to integrate real-time data features in the application.
- Implemented state management using NgRx to improve application scalability and maintainability.
- Contributed to the development of responsive UI elements to ensure cross-platform compatibility.

Spring Rain Private Limited

Jan 2023- April 2023

Software Engineer (Trainee)

- Built backend components using Node.js and frontend features with React.js, improving project management functionalities.
- Gained expertise in JavaScript, Node.js, React.js, and Redux.js while working on scalable Applications.
- Applied agile methodologies to enhance project planning, iterative development, and collaboration.
- Implemented Redux for efficient state management, optimizing data flow and application performance.

Daffodil International University

Lab Associate

July 2022 - December 2022

- Helping students code and fixing any errors in their code..
- Operating System Lab.
- Machine Learning and Data Mining Lab.
- Computer Graphics Lab.

Education

Daffodil International University

Bachelor of Science (BSc) in Computer Science

2018-2022

Certifications

- CDP - Career Development Program (By Spring Rain Pvt Ltd.) Course Contents: JavaScript, Node.js, Koa.js, React.js, Redux.js.
- Available at: GitHub: <https://github.com/NomanHasanNM/Spring-Rain-Pvt-Ltd-Certificate>
- VSCode shortcuts & extensions for Web developer.
- Master HTML and CSS by building real world projects.
- Nation skill Basic Course in Database Programming.

Projects

Top Three Projects.
